First Alert ONELINK™ Wireless-Enabled Battery-Operated Combination Smoke and Carbon Monoxide Alarm with a voice location feature

First Alert® Model SCO500CN

- Exclusive! Voice alarm with programmable location. Programmable with up to 11 locations (such as "kitchen"). When alarm sounds (if programmed for kitchen), it will say, "Warning, Evacuate, Smoke in Kitchen." If smoke/CO alarms are located throughout the house they will also signal, "Warning, Evacuate, Smoke in Kitchen."

- **First Alert ONELINK™-Enabled Smoke Alarm and Carbon Monoxide Alarm**—add additional battery-operated **First Alert ONELINK™-Enabled Alarms** to create a wireless safety network.

- Photoelectric Smoke Alarm—reduces nuisance alarms.

- Alarm and low battery silence feature.

- 5-year limited warranty

First Alert ONELINK™ Wireless-Enabled 120-Volt AC Hardwired Smoke Alarm

First Alert® Model SA520CN

- Easily expand an existing interconnected 120V AC system by replacing one alarm in the series with this alarm.

- Add additional battery-operated **First Alert ONELINK™-Enabled Alarms** to expand without wires.

- Photoelectric Smoke Alarm—reduces nuisance alarms.

- Alarm and low battery silence feature.

- 10-year limited warranty.

Jay Fleming's comments

If the Photoelectric Detector reduces nuisance alarms, shouldn't the public be warned that Ionization Detectors can increase nuisance alarms?

Does First Alert think that ion technology is being phased out? Is that why they do not use it in their new wireless technology?
